

XX SERIES Thermoformers

PlastiVac's **XX** model is our basic automatic, single heat, single table thermoformer. Standard configuration includes percentage heat timers, cooling fans, adjustable single forming table frame, plus an automatic table drive. In addition to available PLC and optimally-sized vacuum system, **XX** models offer extended options including fan delay, air eject and blow off, and up to 50 standard recipes. The **XX** can be further configured with double-ender forming tables (**DE**) for higher production output.

XX machines are available in the following stock sizes:
